In 1978, Sherry and Max left California to live out my dream of being a professional "fine" artist, after "putting out a fleece." At age 26, Sherry and Max gave up their "real" jobs & moved back to Texas, to his parents' weekend ranch near Woodville. They started their art business that spring. In these early days, Max's subject matter included people, wildlife, & nature. He created drawings, paintings, sculpture, jewelry, photography, & wrote articles for hunting magazines.
