

Greiner Intercessor Creations

September 29, 2026 E-Blast

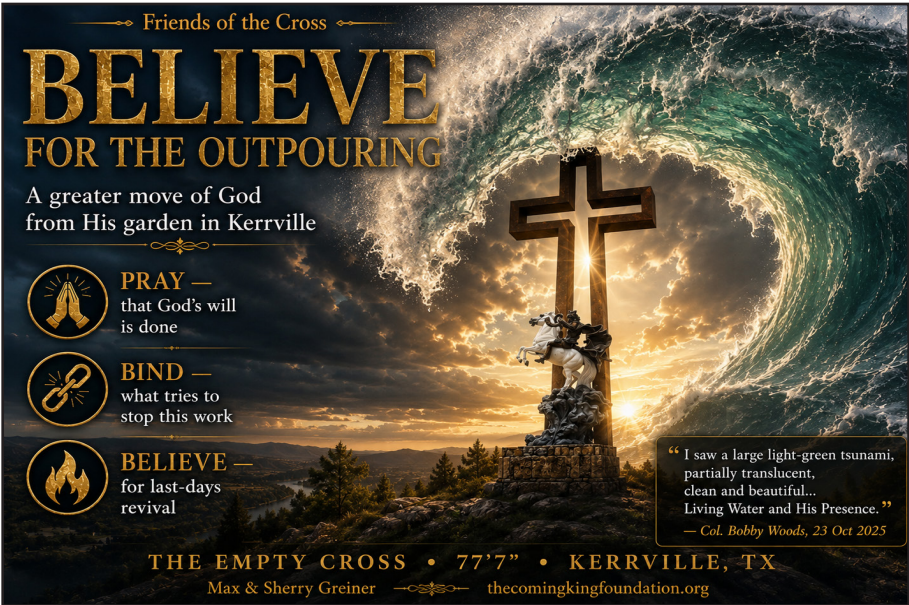

Sherry & Max Greiner, September 2026

Col. Bobby Woods (Retired), Vice-President of THE COMING KING FOUNDATION, created an A.I. illustration of his 3:25am dream of October 23, 2025. He saw a beautiful green tidal wave of "Living Water" crashing over Texas and reaching to the ends of the earth, bringing revival and renewal to a spiritually parched world.

FAITH WALK VIDEOS

On August 1, 2026, at the end of 40 days, traveling music evangelist, Bobby Dendy of Phoenix, AZ invited garden founder, Max Greiner, Jr.. artist/architect/evangelist, to be the first guest on his new "FAITH WALK" Podcast. Dendy stayed at THE COMING KING SCULPTURE GARDEN to pray, minister and play his worship music for 50 days ("Jubilee"). The two "peculiar" (1 Pe 2:9) evangelists shared their amazing true stories of faith, miracles, signs and wonders. Their friendship began on July 16, 2012, when the Holy Spirit sent Dendy to establish 24/7 praise and worship music around "THE EMPTY CROSS". The "type" of last days Tabernacle is in Kerrville, TX where the two video episodes were recorded.

On August 29, 2026, Pastor Phillip Thompson created an illustration and song named "A Wave Of Living Water", inspired by Greiner's Intercessor letter and the Woods prophetic dream received. The song speaks about a Holy Spirit Revival emanating from the Hill Country spiritual art garden.

GARDEN SONGS

After receiving the Greiner's August 29. 2026 Prayer Intercessor letter, two Intercessors were inspired by the Holy Spirit to create three original "A.I." assisted songs about the 25-year mission to build THE COMING KING SCULPTURE PRAYER GARDEN on IH-10 in Kerrville, TX. The anointed songs celebrate the "type" of last days Tabernacle created for Jesus Christ and His children. Michael Mathews, ORU Vice-President of Tulsa, OK, created "It Was Not In Vain." Phillip Thompson, pastor of ARK REVIVAL FELLOWSHIP in Blanco, TX created "A Wave Of Living Water" and "The Mountain Still Speaks".

Pastor Phillip Thompson created an A.I. illustration and ballad named "The Mountain Still Speaks". The song sound describes God using bronze and stone to draw sojourners off the transcontinental Texas highway, into a beautiful garden which honors Jesus Christ.
